

OBJECTIVE	LEVEL OF ACHIEVEMENT			MATERIALS AND EVIDENCES
	HIGH	MEDIUM	LOW	
- To promote inclusion and equality through school leadership, making use of digital tools and innovative methodologies.				
- To compare the educational systems of the participating European countries, visiting relevant educational centers to learn about and implement the most notable practices at an organizational, coexistence and curricular level.				
- To establish a comparison between the system of training, selection and evaluation of secondary school directors in the participating countries to obtain a shared model that highlights the best of each place with proven effectiveness.				
- To analyze and compare the functions of school management and the different models of school leadership that are followed in Europe.				
- To establish a European network of secondary school directors to promote learning among equals, enriching joint experience and disseminating proposals for improvement.				
- To share school organization models and methodological proposals.				
- To share good leadership practices that promote quality in the teaching/learning process.				
- To extend the use of new technologies to the field of management and school organization.				

- To analyze together the future challenges for school management.
